

## EYE CATCHING LANDMARKS

## Organization

*Tulpi-design is a Dutch product design company. The company was established in April 2011 and is run by designer Marco Manders and his team of creative professionals and interns.*

*Tulpi-design is a typical Dutch design studio with a flair for quirky, innovative and playful design for indoor and outdoor environments. Marco Manders achieved international recognition with his Tulpi-seats, which are based on the Dutch national flower, the tulip. Tulpi-seats have been 'planted' all over the world and their popularity continues to 'grow'.*

*Marco's visionary designs are genuinely eye catching... not just for their organic shapes, which are constant reminders of nature's beauty, but primarily because they epitomise the importance of social design. This designer embraces the cohesion of environment and people, playfully contributing to, and thus enhancing, the value, appearance and importance of our surroundings.*

*Tulpi products are designed to inject fun and colour into our outdoor and indoor environments. The designs confirm Holland's reputation for producing high quality products. Not only was the shape a major focus point during the product development process, but a lot of thought and research went into its ergonomic features and user comfort.*

*During Dutch Design Week 2011, an independent jury awarded the Tulpi-Seat the coveted Award for Most Original Design and Good Industrial Design (GIO). In 2015, 2016, 2017 and 2018 Marco Manders received the Bronz, Silver and Golden A' Award and the Silver and Golden IDA award. His Tulpi-Seat was also awarded the APCD \* IDA Excellent Award.*

# Tulpi-Seat

Even the Dutch Royal Family enjoy sitting on the Tulpi®-Seat.

# Tulpi®-Seat

The eye-catching Tulpi®-Seat, developed by Dutch designer Marco Manders, will add colour to any environment. The Tulpi®-Seat is a perfect combination of design, ergonomics and sustainability with a huge fun factor!

The Tulpi®-Seat automatically folds when its occupant gets up... guaranteeing a clean and dry seat for the next user!

With full 360 degree rotation, the Tulpi®-Seat lets you pick your own view!

This clever contemporary product is typical of Dutch design, entertaining and quirky. It will 'flower' and brighten up your surroundings!

The Tulpi®-Seat mobile version is available on a ø70 cm stainless steel plate, enabling the user to place the Tulpi®-Seat wherever wanted, including inside.

The Tulpi®-Seat fixed version can be assembled via the pedestal base on a concrete block or pavement.

*"A great product has the potential to be life changing. It can be simultaneously beautiful and innovative, useful and creative, designed to solve a problem, make life easier or simply spread joy."*
